

## Stop Motion Animation Workshop

Loud n Proud      July 2018

Whilst on the Creative Mentoring Programme with Impact Arts, I worked with another community artist to delivered an introduction to stop-motion/clay-mation for children taking part in a summer programme at Loud n' Proud music school in Paisley. The workshops had a focus on recycling and being creative with everyday materials as well as offering a basic insight into the world of cartoon and movie-making.

The children gained a confidence boost, team building skills and a sense of achievement from creating something from 'nothing'.

Feedback on the day was overwhelmingly positive and the members of staff who aided us told us how much the kids enjoyed what they had done and were talking about it to those who didn't participate – evoking a feeling of pride in being creative is a wonderful thing, and it is hugely rewarding to have provided that.
